# Passwordless Two Factor

## EASY AND MORE SECURE LOGIN WITH PASSCODE / FACIAL / BIOMETRIC

"OpenItem Auth" brings the future of two-factor authentication to the convenience of your smartphone. Two-factor authentication (2FA) adds an additional layer of protection beyond passwords. Merely scan via your mobile device and login accordingly.

Login is associated with user profile and functionality. A Flexible Cloud-Based Solution, this functionality allows for flexibility in managing archiving periods of records.
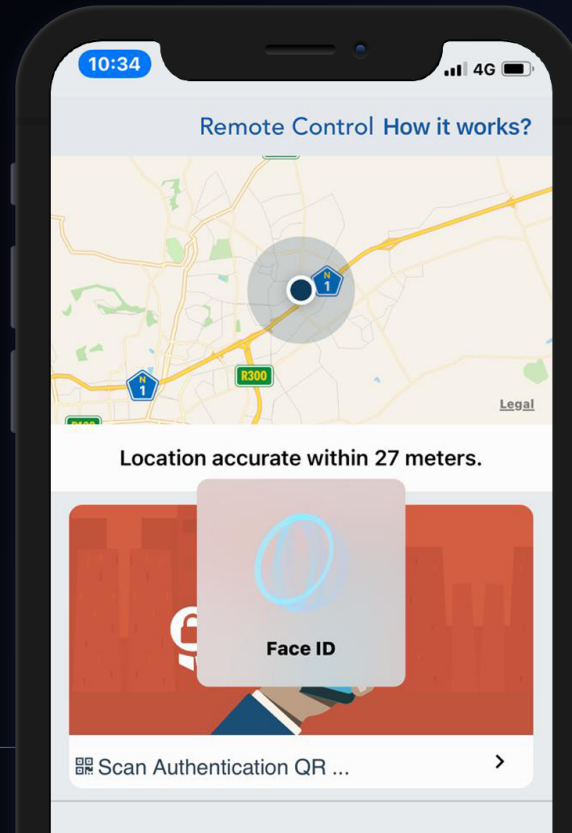

**1**

Access the QR code scanner through the remote button at the bottom of the screen
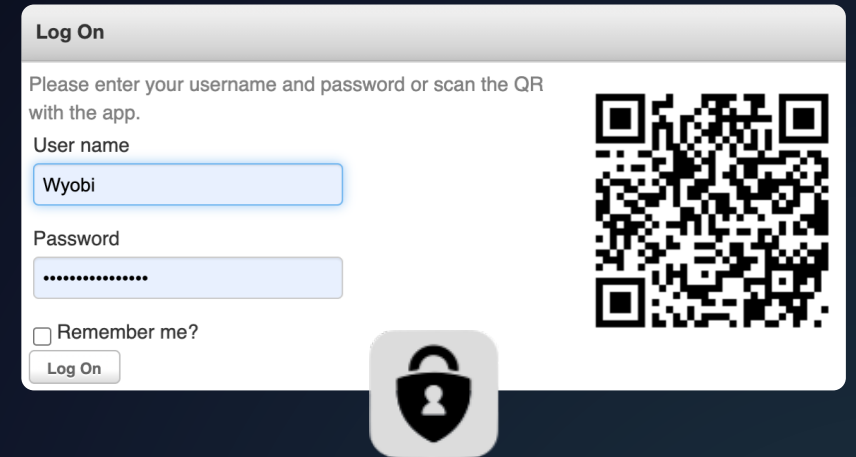

Location accurate within 65 meters.
