

WYOB I

FACE ID RECOGNITION & TEMP. SCANNING ACCESS CONTROL

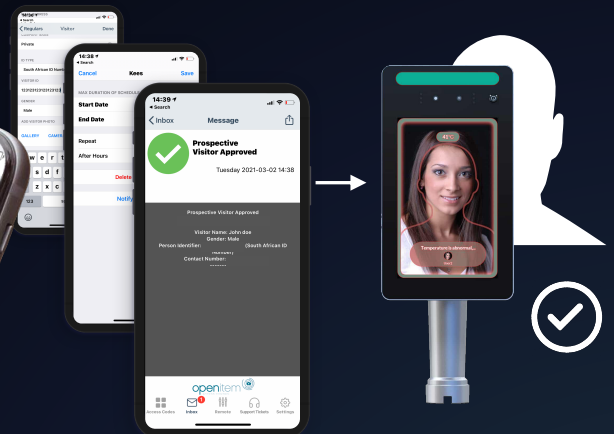

Our FACE ID RECOGNITION function is available to assist residents, tenants and estate/park management with easy, quick, safe and reliable access and exit to controlled access points.

The hardware features temperature scanning capabilities. Thus, the user's Facial ID and temperature is registered simultaneously.

The prospective visitor or resident/tenant registers a visitor's profile, uploads or captures a facial image and on arrival, a quick scan grants them access to the respective estate or park.

PRE-REGISTER > ENTER ID & CONTACT DETAIL >
