Realtime Duel Channel Redundancy

Unstable power supplies and electricity is causing massive disruptions. This is unfortunately also affecting mobile networks. Calls are dropped and users are unreachable.

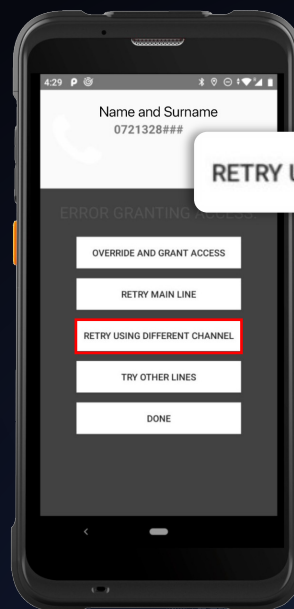

openitem 
ACCESS CONTROL

The latest Openitem update offers the guards at various control points the option to use alternative contact channels/methods to reach residents or registered users. If the user is unreachable the guard app offers the guard the option to dial via VOIP to ensure that the efficient access is controlled and granted.

BENEFITS AND FEATURES

- Increases **redundancy**
- **Further ensures** fast and effective entry

Realtime switch between SIM/cellular based calls and SIP/VOIP type calls
