Short Stay/Accommodation

Welcome to the new normal. In the midst of the covid19 virus pandemic, we have seen a massive increase in deliveries and collections. Our delivery and collection function allows for easy and safe logistical management of your goods.

The app allows users to specify a type of collection, in addition a function to approve and verify goods removal. Specify and describe the goods and upload a photo of the specific object and the guard will pre-clear the exit and removal of these goods.

Allocated time spent in the estate whilst performing the required task, entry and exit time, allows for safe and secure management of your delivery and collection.

In the case of a taxi or shuttle service, the specific driver will only have a certain time period in which to exit the estate prior to entering or passing access control initially.
